

## TESTIMONIES IN 2008

- "A woman came in on Thursday and received prayer for Diverticulitis. On Friday, she had a CAT-scan that showed that the diverticulitis abscess in her stomach was all but gone. Her doctor cleared her to take a trip to Israel that she had previously postponed due to the illness. Praise God!"
- Three college men from Miami University of Ohio came in for prayer and walked out saying "they were glad they stopped in for prayer and walked out blessed in the freedom only Jesus can give."
- I came in for prayer for my marriage that was headed for divorce. My husband is now coming to church with me and loving it.
- My allergies were so bad I could only work for a few hours each day, I was afraid of losing my job. A Healing Rooms Team prayed for me and I'm now working full time with no allergies.
- I was healed of mitral valve prolapse and sleep apnea.
- I received prayer for my back and in a few days the pain was gone. I am so thankful for the healing rooms.
- I was able to forgive myself for the past and received a release from my fears through this prayer ministry.
- I was healed from migraine headaches.
