

## HEALING TESTIMONIES (Sampling from 2013)

--Jesse is 31 and had RSD (Reflex Sympathetic Dystrophy) for almost 10 years and the doctors had exhausted all options. His pain was very severe and his body, especially his legs, were deteriorating. He'd been bed ridden for years because of so much nerve damage and had many surgeries. He wasn't initially receptive to receiving prayer, but amazingly one day allowed a healing room member pray for him, and then even asked that she lay hands on him as she continued her prayer for a miracle. A few days later, Jesse was laying in bed and suddenly felt cold on his toes and could wiggle them. God healed Jesse's leg and nerve in his back instantly and he began walking. We have an awesome God!

-I was under demonic influence and so depressed, could not sleep and was even considering suicide. I came to the Healing Rooms and received prayer that lifted all the oppression and completely changed my personality. I'm now joyful, talkative, positive, full of faith and completely the opposite of the way I had been. I can't stop smiling and laugh so easily. I'm so thankful to the Lord, reading the bible daily and sharing my testimony with anyone who will listen. Tina

--I came to a Healing Rooms conference for healing for myself and family related to illness caused by toxic exposure and fear. During prayer, scripture was quoted about being under God's wings and healing. I felt great peace and warmth come over me which confirmed the healing., Pat

--I came to the Healing Rooms for prayer for my families salvation, and experienced a supernatural encounter with Jesus Christ as He manifested himself to me during the prayer session. I also received a profound word from the Lord which I will never forget. My name is written in the Lambs Book of Life and as long as I live I will never forget that day. Thank God Almighty for revealing His love for me., Deborah

--I came into the Healing Rooms for extreme pain that I'd been having for two years and could hardly walk after I'd started therapy exercises which produced more pain. All medical counsel was that there was nothing more they could do for me. During prayer there was about five minutes of intense heat in the area. she could sit, squat, and walk with no pain. When I left the building and ran to my car with no pain. God is indescribably wonderful!, Tina

--Ryan was in an auto accident in Nov., 2009. The doctors at the hospital said he would never have movement below the shoulders and be on a ventilator and feeding tube the rest of his life. The minute that diagnosis was given, the Holy spirit assured his mother, Carol, that he would be fine, and that was confirmed by a Christian man in the waiting room who shared how he was healed and that God would heal Ryan too. Ryan's complete healing has been confirmed by many times by many people hearing from the Lord since then. Within months Ryan was off the ventilator, then miraculously off the feeding tube, to eating full meals. It was prayer and God's miracles at work. Since then there has been movement in every limb in his body, amazing strength in his legs and right arm, and some finger and toe wiggling, as well as sensation in many parts of his body. Many people from the Healing Rooms, churches and friends and relatives continue to pray for total and complete healing for Ryan as his progress continues towards full restoration. As that is happening, Ryan is on an incredible spiritual journey that has transformed him inside and out and he is having an amazing impact for the Lord thru sharing his story, testimony and insights during visits to schools, churches and his blog. To God be all the Glory., Carol & Ryan
