

## HEALING ROOM TESTIMONIES – 2017

I came to the healing rooms for prayer because I was previously healed of rheumatoid arthritis several years ago but was struggling with it again for a couple of months. After prayer, I felt a shift in the pain. I went home and went to bed unable to move my arms. I didn't take any pain pills or predisone, remembering God is bigger than the pain. When I woke up, I was pain free, healed and able to work the entire day. Thank You Jesus! Al

A woman who attended the Ohio State Healing Room conference called after it was over and said that her feet were healed at the conference and her friend was completely healed from head to toe. Praise God!

I came to the healing rooms for prayer against anxiety and fear. I immediately felt peace & cleansing. I then received prayer for pain in my neck & lower back due to sciatic nerve problems. I moved around and felt relief and when I bent over I felt my back & hip adjust with reduced pain. I also received prayer for adrenal deprivation and associated confusion. I was immediately healed and felt peace, relief & cleansing. Praise the Lord! Libby

I had a rotator cuff injury that was causing me pain and inability to move certain ways. After I received prayer the pain was gone. Hallelujah! Marla

I had experienced a lapse seizure 4 years ago, and then several more seizures followed. There were hospital tests and I was diagnosed as epileptic and wasn't able to drive for 3 months. Little by little the seizures decreased in frequency but then continued to show up on occasion. I knew that I wasn't truly healed. I heard about the healing rooms and came for prayer. Three ladies prayed for me breaking off everything that wasn't from the Lord and praying scriptures over me and it felt like the Father was praying over me. That night I had a dream in which I overcame everything that had a hold on me and was totally free. I knew it was Jesus in me that did it. Praise God! Kelli

I came to the healing rooms with eye problems expecting I might have glaucoma. They prayed for me and the next day I went to the doctor. No Glaucoma, my sight was healed. Thank the Lord! Judy

I came to the healing rooms because my lungs were congested and hurting and I was coughing up bloody mucus. The prayer warriors there prayed for healing in my lungs, for any virus to be removed and my lungs to be like new. I felt the Holy Spirit fire move in and thru me healing my lungs. I was asked to breathe deeply and I exhaled 3 times with no difficulty and everything was clear and clean. NO congestion. Thank You Jesus! Donna
